

**I Can Do That**  
**The Futureheads**

**A** **B** **Cm** sharp

**E**  
I ve been waiting six months for a sign that this is not a farce  
**E**  
I m sick of having to read between the lines  
**E**  
I wrote a hundred letters without expecting a reply  
**E**  
I ve made more phone calls than a wealthy guy

**A** **B**  
The power of persuasion is lost on the young  
**E** CmSharp  
I wish that I still had it I know I d bring it on  
**A** **B** CmSharp  
Take a chance on me is slipping off my tongue  
**A** **B** Cmsharp  
The strange thing is, I know I m not the only one

**E** Cmsharp  
I can do that! I can do that  
**E** **A**  
I can do that! i can do that

You can do it!

(Exactly the same chords for the next verse etc...)

I m standing in a queue just to prove that I am not a joke  
They ask you a question and look at you like you told a lie  
I ve got enough bits of paper in my folder  
I ve been coming here so long I know their middle-names

The power of persuasion is lost on the young  
I wish that I still had it I know I d bring it on  
Take a chance on me is slipping off my tongue  
The strange thing is, I know I m not the only one

I can do that! I can do that! (repeat)
