**The Futureheads**

Futureheads

Robot

Tabbed by: Daniel (roclife@hotmail.com)

I love this band! Futureheads fans, keep doing tabs. Somebody do Carnival Kids already.

This song is pretty basic. The timing might be off on some of the chords simply because

there are too many voices going on at the same time, so I only tried to match the chords

with the lead vocals. Anything in parentheses is the echoing or backup, so sing along

there if you want.
