

Meet Me By The Rivers Edge
The Gaslight Anthem

Thanks to Thomas StÃ¼ckelberger whose original tab served as the basis for this tab. I just put the chords I believe to be correct on his format. This sounds pretty perfect playing along with the song. Keep in mind that they are playing different chords, or at least with a capo on a different fret, as they play with their guitars a full step down, so if you tuned down your guitar to play Gaslight Anthem, you would need to play this with the capo on the 5th.
