

Play Pretend
The Glass Child

G#m / F# / E / F#

Well I'm done,
I won't be the one to take your shit anymore,
Just keep on talking to yourself
You don't hear what I say in my defence anyway

And I have figured you out
You've been playing me like broken strings
You're half of the man I thought you'd be
Mister don't think I can't see
How you're fooling

E / F# / G#m / G#m x3

I never thought that you undressed me
To see a better view of my heart
You can take another piece of me

E / F#m / B

Like you've been doing from the start

G#m / Dm / E / F#

I've never been so used, as I do with you
I've never felt so small
as when I'm, when I'm around you

Just tell me how you want me to be
Tell me how am I supposed to be?
You're smoking me, well aren't you?
Youn't think that I can't see
You're using me

G#m / F# / E / F#

So let's drink to that
and everything that we'll never be
By now I'm used to play pretend
You won't be laughing in the end
I can see you however you see me,

so who's fooling who now?
I guess for you I was a great idea
I could help you leave her behind
You've been messing up my mind
You've been twisting my mind

G#m / Dm / E / F#

I've never been so used, as I do with you
I've never felt so small,
as when I'm, when I'm around you

Just tell me how you want me to be
Tell me how am I supposed to be?
You're smoking me, well aren't you
Don't think that I can't see
You're using me

C#m / G#m / C#m / G#m

Oh I never thought that you undressed me
to see a better view of my heart

C#m / G#m / F# / F#

I've figured out the rules to this game no
that you've been playing from the start

G#m / C#m / G#m / C#m Dm /

I'm sick of always being so unsure
Sick of always ending up alone on the floor
And I'm so damn tired of trying to be
Like those pretty girls
that you want me to be

G#m / C#m / Dm / Dm /

I'm not living this life to waste away my pride
I'm done letting people take away my pride
You can stay where you are
I can be so much more
I can get what I want
Hear my vocal control

G#m / C#m / Dm / Dm /

G#m / Dm / E / F#

I've never been so used, as I do with you
I've never felt so small,
as when I'm, when I'm around you
Just tell me how you want me to be
Tell me how am I supposed to be?
You're smoking me, well aren't you
don't think that I can't see
You're using me
