Verse:

This is goodbye
After months of careful planning
I can finally leave this dried up town behind
And I m alright
Yeah, this used to be our city
This used to be our only light

Chorus:

I just want to walk away
I want to write but there s a consequence
That all my friends read everything I do and I say
I don t need to reign supreme
All I need are sounds of ecstasy

And I won t die today
Yeah, I ll be living, loving, writing down
And I ll live a life of dreams
And be grateful I m around
