Get put in the headlines

And back off they go

And I wonâ \in TMt stand for anything more

Tried our hand even though we were poor

Casting our lines off shore

C

It's a choice of my own

```
And I won't stand for anything more
Tried our hand even though we were poor
We've put in the time
Casting our lines off shore
And I'm sorry but I find no glory in that
I just want you off my back
                                   Em
And there's not a word in my head floating around
You won't pick your part and put down
And I won't stand for anything more
Tried our hand even though we were poor
We've put in the time
Casting our lines off shore
We've put in the time
Casting our lines
                            Em
And I'm sorry but I find no glory in that
I just want you off my back
                                   Em
And there's not a word in my head floating around
You won't pick your part and put down
So get out of my head
Get out of my head
Get out of my head
```
