Chords

I m not 100% sure about the chord names, but I do know these are the exact chords he uses in the song.

A A7 D Dm C A#

```

|--0---0---2---1-----|
|--2---2---3---3---5---3--|
|--2---0---2---2-----|
|--2---2---0---0---5---3--|
|--0---0---0---0---0---0--|
|-----|

```

The rhythm is easily picked out of the song, it s not complicated. Also, the low E string may very probably be used at certain spots in the song to produce a bigger, more dramatic sound. Your call, honestly.

Lastly, this is my first tab/guide. Enjoy.

*Note: Periodic lyrics are in place as a mechanism to know what line you re on. Notes are NOT placed in relative position to the lyrics, they are only placed relatively to themselves.
