

Hallelujah
The Helio Sequence

it s capo on 3rd fret,
F, C/G, for the verse
F/C, C/G for chorus

F -133211
C/G-332010
F/C- 033210

F
And though we may not believe in god

the grey skies fell
C/G
we felt the pressure drop

and we were feeling down
F
some eyes were looking down at us

the souls that made the call
C/G
to judge but when they spoke said not at all

the words that came made not a sound
F
our mouths said not a sound at all

what sheldon said we we wrote a book
C/G
and rearranged the size and forms

to look like something understood
F
like something we had seen before

And waiting pensive, sad, and look
C/G
up to the stars and counting all the suns

and all the moons

how sad it was that we could not believe

(Chorus)
F/C

And everyone move with ease

and everyone move with ease

C/G

and they said

we all said hallelujah

we all said hallelujah

F/C

and everyone move around with ease

C/G

and everyone move with ease around the bend

we all said hallelujah

F

we don t want answers anyway

verse

F

Still we could not conceive the call

C/G

the midnight fell we felt the measure fall

and we were feeling down

F

some eyes were looking down at us

And waiting pensive, sad, and look

C/G

up to the stars and counting

all the suns, and all the moons

how sad it was that we could not believe

(Chorus)

F/C

And everyone move with ease

and everyone move with ease

C/G

and they said

we all said hallelujah

we all said hallelujah

F/C

and everyone moved around with ease

C/G

and everyone fell right to the knees and then

we all said hallelujah

F

we don t want answers anyway.
