=====
Lyrics

--=====

Well, Is it true what they say about it
You wanna do what I do and I doubt it
And then they tell you anything about it
Yeah, I know

I got some people say it s this way
I got some people say it s that way
And then some people say there s no way
Hell, I know

[Chorus:]

See that idiot walk
See that idiot talk
See that idiot shock up his name on the backboard
Artist: The Hives
Song: Walk Idiot walk

See that robot walk
See that robot talk
See that robot write up his name on the battle
They say this is all I need you to get by
The truth is, baby, it s a lie-ie-ie-ie-ie

Well, Is it true what they say about it
You gotta do what I do and I doubt it
I announce I wanna do something about it
Ain t it fair

I got some people doing it this way
I got some people doing it that way
And then some people
Ain t it fair

[Chorus]

I got a martulation
And through a miracle of bad equation
You gave up and you started thinking
They were true

If you are beauty and combination
Body at work and a mind on vacation
We re on a tray we started thinking
It was you

[Chorus]
