

A Slight Discomfort
The Hold Steady

First Tab. This is accurate, but I can't get the text to properly display the rhythm, sorry.

//

No Intro

VERSE

C#m

I thought you're through with all the bougie guys,

E

don't you wonder about the other side?

They only get invited 'cause

they think that they might buy

Ain't it sad about these metro guys,

don't it hurt to watch them moisturize?

They're never funny and they're

all so scared to die

CHORUS

C#m

A

G#

We're not afraid, we have our faith

We've seen scattered action and we've mostly come out unscathed

We'll be alright, we'll get through the night

Our struggle still feels wonderful most days, most days

(Instrumental over Verse Chords)

VERSE

Don't it suck about the succubi, the bloodsuckers and the parasites?

They're never funny and they're all so scared to die

All the small talk seems like suicide, the spiderwebs with the legs and eggs and eyes

They creep up from behind

If I were you I wouldn't get too close

I've seen how they eat and it gets pretty gross

They slip their tongue and they hitch onto their host

CHORUS

We're not afraid, we have our faith

Seen a couple slaughters and they mostly turned out okay

We'll be alright, we'll get through the night

Our struggle still feels wonderful most days

MIDDLE 8

C#m G# A F#

Hey New York City, I love it when you turn on your lights
Our struggle still feels wonderful tonight

BRIDGE

E A

(Instrumental)

E A

And you say you re a princess
But I remain unconvinced
I ve seen the guys that you ve been with
They don t much like princes

And you say you re much better
But I don t quite believe it
I saw the girls that you came with
I saw the guy that you left with

And you say you tried Jesus but it was too inconvenient
You just didn t have the patience
You say you said prayers but it felt like there was nobody there
I didn t think that you d get it

This shouldn t hurt
But you might feel a slight discomfort
This shouldn t hurt
But you might feel a slight discomfort

This shouldn t hurt
But you might feel a slight discomfort
This shouldn t hurt
But you might feel a slight discomfort
