CHORUS

Em D C G

I ve read the bible, lord i don t know if its true

Em D C G

one thing s for certain i could tell it right now to you

Em D C G

when i think about moses i fall down on my knees and i say

C G D G

god damn, you re such a good friend to me Yes I say

C G D G

holy moses! you re such a good friend to me

Now every single time i call moses, he comes and gives me just what i need
holy moses! you re such a good friend to me

I got to climb up top of that high high mountain, sail across the seven seas
holy moses! you re such a good friend to me

I ve been to valhalla, sat right in front of the king

I ve seen the white lighting and the thunder made my ear drum ring

I had a dream about moses fighting all the hatred and greed

I woke up and said god damn! you re such a good friend to me

Yes, I say Holy Moses! A mighty good friend indeed.

If you ever need someone to depend on, you can take a little tip from me
Holy moses! Such a good friend indeed

You all got to say hallelujah and slap him on the back for me
you can say Holy Moses! he s such a good friend indeed

Well he aint no rich man, but he s sure got a heart of gold
and i know he ll be by my side just living on the boulevard
and i know you re gonna love him, just you wait and see
you know I say god damn! You such a good friend to me

yes you say Holy Moses! Such a good friend indeed

Amen
