I ve read the bible, lord i don t know if its true

**Dm C Bb F**

one thing s for certain i could tell it right now to you

**Dm C Bb F**

when i think about moses i fall down on my knees and i say

**Bb F C F**

god damn, you re such a good friend to me Yes I say

**Bb F C F**

holy moses! you re such a good friend to me

Now every single time i call moses, he comes and gives me just what i need

holy moses! you re such a good friend to me

I got to climb up top of that high high mountain, sail across the seven seas

holy moses! you re such a good friend to me

I ve been to valhalla, sat right in front of the king

I ve seen the white lighting and the thunder made my ear drum ring

I had a dream about moses fighting all the hatred and greed

I woke up and said god damn! you re such a good friend to me

Yes, I say Holy Moses! A mighty good friend indeed.

If you ever need someone to depend on, you can take a little tip from me

Holy moses! Such a good friend indeed

You all got to say hallelujah and slap him on the back for me

you can say Holy Moses! he s such a good friend indeed

Well he aint no rich man, but he s sure got a heart of gold

and i know he ll be by my side just living on the boulevard

and i know you re gonna love him, just you wait and see

you know I say god damn! You such a good friend to me

yes you say Holy Moses! Such a good friend indeed

Amen
