### The Horrible Crowes

-----  
Crush - The Horrible Crowes - Elsie  
Full Step Down (DGCFA<sup>d</sup>)  
Tabbed by Jack Cookson (Torn Asunder)  
-----

A very basic way to play crush, based on what I saw Brian play at the Revival Tour in Bristol!  
The original song features a pretty innovative bass line which sometimes doesn't totally follow the root notes of the chords, but don't let that throw you off.  
This is basically what Brian Fallon plays, though I've added some tiny bits for people learning this to play solo.
