

Schizophrenia
The Jakes

E
And now the shades are drawn
E **G** **E**
This dark infesting shadows cross the hall and now theyâ€™re gone
E
I see this old arcade
E **G** **E**
And rain comes down the gutters to the wood this liquid dawn
E
So my heart races now
E **G** **E**
These palpitations bust the seams off my laced sequin dress
E
I see you standing there
E **G** **E**
With rosy fingers, damn this life a godless existence

D **G** **E** **D**
This schizophrenia is taking over me
G **A**
And we donâ€™t need this now do we Oh

E
It never was like this
E **G** **E**
But still I could not be trusted with your love no not once
E
We danced the meringue
E **G** **E**
Those golden footsteps signs of our fate in redundancy
E
But now the past is gone
E **G** **E**
And now Iâ€™m messed up beyond any thought or small belief
E
This fate is choking me
E **G** **E**
Like icy water from the depths of that barrier reef

D **G** **E** **D**
This schizophrenia is taking over me
G **A**
And we donâ€™t need this now do we
D **G** **E** **D**
This schizophrenia is taking over me
G **A**
And we donâ€™t need this now do we
