

Schizophrenia
The Jakes

F
And now the shades are drawn
F **G#** **F**
This dark infesting shadows cross the hall and now they're gone
F
I see this old arcade
F **G#** **F**
And rain comes down the gutters to the wood this liquid dawn
F
So my heart races now
F **G#** **F**
These palpitations bust the seams off my laced sequin dress
F
I see you standing there
F **G#** **F**
With rosy fingers, damn this life a godless existence

Eb **G#** **F** **Eb**
This schizophrenia is taking over me
G# **Bb**
And we don't need this now do we Oh

F
It never was like this
F **G#** **F**
But still I could not be trusted with your love no not once
F
We danced the meringue
F **G#** **F**
Those golden footsteps signs of our fate in redundancy
F
But now the past is gone
F **G#** **F**
And now I'm messed up beyond any thought or small belief
F
This fate is choking me
F **G#** **F**
Like icy water from the depths of that barrier reef

Eb **G#** **F** **Eb**
This schizophrenia is taking over me
G# **Bb**
And we don't need this now do we
Eb **G#** **F** **Eb**
This schizophrenia is taking over me
G# **Bb**
And we don't need this now do we

Eb **G#** **F** **Bb**
 Talk to the light, youâ€™ll be colored so bright
Eb **G#** **F** **Bb**
 Behind the wheel, they stalk over the drill sirens
Eb **G#** **F** **Bb**
 Open your mouth behind shades ofâ€¦
Eb **G#** **F** **Bb**
 Waking in fire and dreaming inâ€¦
Eb **G#** **F** **Bb**
 Holding the night behind straight corn and papyrus
Eb **G#** **F** **Bb**
 Holding by lusciousâ€¦ Stares that you gave us
Eb **G#** **F** **Bb**
 Waiting for strength behind locks in the fire
Eb **G#** **F** **Bb**
 Wait for the love that you said would inspire
Eb **G#** **F** **Bb**
 Wait for the times that you Said you would cherish
Eb **G#** **F** **Eb**
 Wait for the love that you Said that would make it!

Eb **G#** **F** **Eb**
 This schizophrenia is taking over me
G# **Bb**
 And we donâ€™t need this now do we
Eb **G#** **F** **Eb**
 This schizophrenia is taking over me
G# **Bb**
 And we donâ€™t need this now do we
