

A Little Piece
The Jezabels

CAPO 4

There s a cold easy glow, dancing over our street
I could have chased you down, I could have held your love
But wouldn t you think me weak?
Of all I should know how the streets come and go
And you chased the kaleidoscope dream
Stranger, baby, always keep me in your sweet memory

Am G F C G (x2)bridge thing

A biting cold, thrashing, scolding
Drowned me under our street
Perfect hips, perfect *tits*,
She was perfect lips
Pieces of your heart, splattered on the cliff
We go home, watch a movie
Tell me can you feel the beat?
Getting worse, getting worse, she was
Letting those feelings loose, she was becoming a monster

She drew the line in the mind, she was done Holding on
Look at me, can t you see I m in love
Hold me tight, there, you got it
And did you find, that you like
A little piece of cherry pie,

Hot from the oven, from the oven.
