

Long Highway
The Jezabels

LONG HIGHWAY- THE JEZABELS

G#m **E**
You see this writing on the wall
G#m **F#**
Oh, angel, you see this curtain fall
G#m **E**
Good times seem so far away
G#m **F#**
Just a memory, old and grey
B **E**
And there was no one like you
F# **B** **E**
You rip apart the clouds in all my days
F# **E**
Others all fade away
F# **G#m**
On this long highway
E
Mesmerising
F# **G#m**
Long highway
E
Paralysing
F# **G#m** **E**
Long highway
G#m **E**
And you may find your place to run to
G#m **F#**
In winter frosts, your bed to climb to
F# **E**
But I have seen down deep inside you
G#m **F#**
They won't love you quite like I do
G#m **E**
Look around, something real
B
Touch something you can feel
F#
I found my dreams were ordinary
E
Let me turn to sand
G#m
Still will be waiting for you
F#
Still, it will be there

B **E**
In the color of rose in the sky
F# **B** **E**
In the ever-steady glow of your eye
F# **E**
Let it all fade away

F# **G#m**
Long highway
E
Mesmerising
F# **G#m**
Long highway
E
Paralysing
F# **G#m** **E**
I m on my way
C#m
So, looking back
G#m **F#**
You with your hands on your face

Did I drift into your mind?

Did I find a place?
E
All that we had here,
F# **E**
Did it happen everyday?
F# **G#m**
Long highway
E
Terrorising
F# **G#m**
When I call your name
E
You stand before me
F# **G#m** **E**
Hear me roar
F# **G#m** **E**
Hear me roar
F# **G#m** **E**
Hear me roar
