The Kills

Verse

```
Bm    D        F#
Baby save it, we re wasted
G                         F#
I know we gotta slow it down
Bm          D        F#
But when the waves come, you face them
G                              F#
And you know we can t stop it now

Heads up we re in a dead club
G                             F#
Put your hands up and do your dipsy and dropsy
Bm                          D
And line up, we re hanging up

Doing it to death
