Took a car to the part of the city where the city runs out of the street lights.  
 God know s it s the way that it goes that we re never gonna catch any daylight.  
 My little sister s eyes so wide, they must have been the size of the city moon  
 tonight.  
 My little sister s eyes so wide, they must have been the size of the city.

Did you get me the good ones? The real good ones what you got?  
 Take the water for the water tastes good. I took the water and the water was  
 hot.  
 Once in a while... once in a while you ve got to burn your lips to keep your  
 feelings alive.  
 Once in a while... once in a while you ve got to burn down your house to keep  
 your dreamings alive.

Play the same like 1st chorus
