Am          C   Am7  Am    D
Oh yeah, oh, oh, oh, oh yeah

                         Am
If you get yourself in a fight
                                         Am
If that s the way you wanna live your life
                   C       D
You can get yourself connected
                         Am
To the world that we are thrown to, yeah

But all I need is somewhere to lay
                 Am
Somewhere to lay my head on

I need someone to love in the middle of the day
           Em        F
I want someone to be
                     Am
And someone to drive around town
                 G                 Dm
I need someone to love when the chips are down

You can try to be someone you re not
                             Am
If that s the river that you want to cross
             C         D
You can do the life of a bohemian
```

Or you can choose the material world
