Fractured And Dazed
The Kooks
[Intro] Em D G D C D
I ll never give your love
Never give your love away
                                                      Em D G
Remember love, When we weren t so fractured and dazed
In a world where we try to hurt eachother
I know you feel bad
For what you did and how you recovered
 I m a blessed man
Just to have touched your face
But then again
Who are you to make me replace that
And if I was you
I would have done the same
When lies meant truth to you
                            Em D G D C D
It was you who loved the fame
I ll never give your love,
                            Em D
I ll Never give your love away
I ll never give you up
                      Em D
No matter what you say
Blue eyes and a flicker of wonder in you
```

```
Never a greater sorrow
Five hundred years in the wild with you
Wouldn t be enough
We flying, to crazy to imitate
And if I was you
I would have done the same
When lies meant truth to you
            Em D G D C D
It was you who loved the fame
