--Now he arpeggiates the same chords played in first verse:--

Bm, **Am1**, **Am2**, **E7**, **Em7**, **F#** and them strums **Bm** - **Am5** - **Bm** x2

----silence here-----Am-Am5-Am x2

You dirty small town girls

----silence here-----C

How I wish you were here now

F# **Bm-Am5-Bm** x2

And show me how to be the man,

I m your man

D **F#**

As only you can, as only you can

Bm-Am5-Bm x2

My White City girl

(just the same again)

Well someone said you were an angel

Only what kind of angel

Would whisper hello

And shout goodbye

My White City girl

G **A**

And I ve seen you go down

D - D/B - Bm

On one too many times

G **A**

It chills my bones to seem that way

F#

Oh that way

Bm-Am5-Bm x2

And this aching heart of mine

(NOW REPEAT ALL)

You said you live your life by the Albion creed

So pure in thoughts and word and deed

Well, oh my boy, what did you gain?

Just empty bottles and ... roots

And holes in the years of your cowboy boots

And that makes she ll never forget your name

Or your lies...

And no-one s going to sell you any alibis
