

Sister Sister
The Libertines

amazed there wasn't a tab for this great song so i made one. here it is :)

E **B**
Everyone knows the baby's unhappy
E **A**
Another day in paradise
Am **E**
In a world where you never grow old
B
Warms my bones and melts the ice

E **B**
So what's wrong, with my best friend
E **A**
If to me her hand was lent
Am **E**
It's all bringing me down
B
It's not alright

A G E B A
Hold on tighter to the friends that you made
E B
And the life that you once knew
A
She's not mine, and I won't change one thing
E B
You gotta move in line
A **A G E**
She's not mine, and I won't change one thing

Mother dear, oh I am so sorry
Father friend, I feel so bad
Brother tried and failed to hate me
Even if he raised his hand

Sister sister, please don't wake me
Won't you please try understand?
These things just seem to overtake me
Self indulgence, not the plan

Hold on tighter to the friends that you made
And the life that you once knew
She s not mine, and I won t change one thing
I gotta move in line
She s not mine, and I won t change one thing

E **B** **A**
And I wish I never shook your hand
And I wish I never shook your hand
Oh I wish I d never shook your hand
Oh I wish I d never shook your hand
Oh I wish I d never shook your hand

Thanx hope its OK
