Koreema know just what it is she does
A **E** REPEAT
It cant be hard for her to get a buzz

Down in the street below

You can hear the drunken prophet sing

I know whats on your mind my boy

I can see oh everything

Lead pipes are fortune made well

Take a tip from me

D **Dm**
Climb up to her window ledge or you ll forever be

Just walking under ladders as the people round you hear you crying please
D **A** **G#, G, F#**

Who really knows just what it is she does
It cant be hard for her
To get a buzz
The rapture of vertigo
And letting go
Me myself i was never sure
Was it the liquor
Or was it my soul?
