THE LIGHTNING SEEDS: Where Flowers Fade

Intro: **G**

**G**

I m pushed and pulled and shunted, manhandled and manhunted  
By those faceless names

**F**

You ve got nine lives, I ve got eight, I just can t wait to lock the door  
And throw the keys away

**G**

I ll call as soon as it s all over  
Let s wait until the world is sober

**A D A**

The world is wide, Manhattan chase

**E**

Misguided missiles spin in space

**A D A**

Feel like a sundial in the shade

**E F**

Where flowers fade

I feel like a poor relation passing through an empty station  
On an empty track

I m half povert half oysters, no morals, tarnished laurels  
Going nowhere....fast

You don t get smoke without a fire, next time I ll vote for Billy Liar

I hate liars, I hate cheats, waving flags and saving nations  
Goodbye love, goodbye peace, I hate war...it ruins conversation
