

Six Ways To Die
The Lillingtons

Listen to the song for the pattern on the lead part.
The E on the 5th string should ring with the A on the 4th string.

The chords are power chords, so if you re playing on a distorted guitar, ignore the minors and just play the chords as power chords

(**A** = 577xxx, **F** = 133xxx, **G** = 355xxx, **C** = x355xx)

If you re playing on an acoustic (which sounds equally as good) I recommend open chords.

[Lead guitar part]

D|-7--7-7-7-7-7-7--7-7-----|
A|-----7-----|

```

[Verse]

```
Am                F      C
Stranger with a shovel in his hand
Am                F                C
Nasty look he stares at each on melting face down in the sand
Am                F      C
One by one he sends them down to hell
Am                F                C
Shoots them full of holes instead of dragging them into jail
```

[Chorus]

```
      G                F
He s the son of a bitch you were looking for
      G                F
Six shooter hanging from his side
      Am  G    F
Now it s time to decide
Am  G    Am
Six ways to die
```
