A
I met her down
G D
at the apothecary
A
with sad sad eyes
G D
the burden she carried

D D7
oh darlin try this one
G
if you need a friend
D
i ve got the cure for
A D
the shape that you re in

A
when you met me you were numb
G D
from the voice in your head
A
the conspiracy delusions
G D
that your boyfriend kept fed

D D7
oh i swear i want nothin
G
just give me your hand
D
i ve got the cure for
A D
the shape that you re in

A
your saccharin luster
G D
is a hard little pill
A
she eats me to talk

G **D**
like hands to be still

D **D7**
just once in the morning;

G
the evening again

D
she s got the cure for

A **D**
the shape that i m in

A
I met her down

G **D**
at the apothecary

A
with sad sad eyes

G **D**
the burden she carried

D **D7**
oh darlin try this one

G
if you need a friend

D
i ve got the cure for

A **D**
the shape that you re in

A
all delusions of grandeur

G **D**
had long left my head

A
i split with the notion

G **D**
that i ve been well read

D **D7**
she shoots me with whiskey

G
and chases me with gin

D
she swears im the cure for

A **D**
the shape that she s in

A
when she left me, reeling,

G **D**
with that time release feeling

A

like a low whisper thunder

G **D**

i hung from the ceiling

D **D7**

i ll be found down

G

at the apothecary again

D

can t find the cure

A
