Angela
The Lumineers

Intro: **G Dm C** (2x)

```
        G                           Dm
When you left this town, with your windows down
       C
And the wilderness inside
      G                   Dm
Let the exits pass, all the tar and glass
          C
 Til the road and sky align
```

```
   G                      Dm
The strangers in this town
    C                    Am7
They raise you up just to cut you down
  G           Dm              C
Oh angela it s a long time coming
```

```
        G                   Dm
And your volvo lights lit up green and white
        C
With the cities on the signs
        G                     Dm
But you held your course to some distant war
      C
In the corners of your mind
```

```
        G             Dm
From the second time around
   C              Am7
The only love I ever found
  G           Dm              C
Oh angela it s a long time coming
```

1ºRefrão:
```
        G    C Em
Home at last
```

```
        G                       Dm
Were you safe and warm in your coat of arms
         C
With your fingers in a fist
```

```
        G                       Dm
Did you hear the notes, all those static codes
     C
In the radio abyss?
```

```
   G                          Dm
Strangers in this town
      C                           Am7
They raise you up just to cut you down
    G              Dm              C    Am7
Oh angela it s a long time coming
    G                   Dm                 C
Oh angela spent your whole life running
