

**Boa Constrictor**  
**The Magnetic Fields**

**F**            **C**        **Bb**        **F**  
I spend my evenings alone  
          **Bb**            **F**            **C**  
talking to your picture babe.  
**F**            **C**            **Bb**            **F**  
Love is wrapped around my heart  
          **C**                            **Bb**  
like a boa constrictor babe.

**F**            **C**                    **Bb**            **F**  
My mother should have murdered me.  
          **Bb**                            **F**                    **C**  
What jury would convict her babe  
          **F**            **C**                    **Bb**            **F**  
for love is wrapped around my heart  
          **C**                            **Bb**            **D**  
like a boa constrictor babe.
