

**Boa Constrictor**  
**The Magnetic Fields**

**F#**            **C#**    **B**            **F#**  
I spend my evenings alone  
          **B**            **F#**            **C#**  
talking to your picture babe.  
**F#**            **C#**            **B**            **F#**  
Love is wrapped around my heart  
          **C#**                            **B**  
like a boa constrictor babe.

**F#**            **C#**                            **B**            **F#**  
My mother should have murdered me.  
          **B**                            **F#**                            **C#**  
What jury would convict her babe  
          **F#**            **C#**                            **B**            **F#**  
for love is wrapped around my heart  
          **C#**                            **B**                            **Eb**  
like a boa constrictor babe.
