

We ve got champagne taste  
But not enough money for the real thing  
We ve got flames in our veins  
And just enough money for the weekend

**F** **C**  
And last night I did things

**G**  
My mother told me not to

**F** **C**  
With the people I shouldn t see

**G**  
In the places that I should not go

**F** **C**  
And it felt just like

And it felt just like

**G**  
And it felt just like

**F**  
And it felt just like

**C**  
And it felt just like

And it felt just like

**G**  
It felt like love and drugs

**F** **A** **F**  
Let the waves of strange fall down  
**Dm** **A** **G**  
Let them crash and drift around

**F** **C**  
And last night I did things

**G**  
My mother told me not to

**F** **C**  
With the people I shouldn t see

**G**  
In the places that I should not go

**F** **C**  
And it felt just like

And it felt just like

**G**  
And it felt just like

**F**  
And it felt just like

**C**  
And it felt just like

And it felt just like

**G**

It felt like love and drugs
