

**Four-Color Love Story**  
**The Metasciences**

I m not sure the key is exactly correct, but the progressions should all be just about perfect.

Capo 1

Intro: **C F C F**

**C F**  
Another day at work is nearly over  
**C F**  
You must ve seen the whole thing on T.V.  
**C F**  
Seventeen more city blocks and I can almost smell you  
**C F**  
Waiting at the windowsill for me  
**G**  
It s our 41st anniversary  
**Am F**  
But we don t look a day over 23  
**C**  
Not in this life  
**G**  
Not in this universe

**C F**  
And we were still in high school when I met you  
**C F**  
If you believe the continuity  
**C F**  
I rescued you from robots and untied you from the tracks  
**C F**  
And you pretended not to know that it was me  
**G**  
We didn t even kiss until issue 26  
**Am F**  
And this world still feels like 1963  
**C**  
I love this life  
**G**  
I love this universe

**C F**  
And you ll keep my identity a secret  
**C F**

And you will know the touch beneath my glove

**C**

**F**

And I may go out every night and risk my life for strangers

**C**

**F**

But you re the only girl I ll ever love

**C**

**F**

And Gwen Stacy isn t dead, she s only sleeping

**C**

**F**

And Elektra isn t evil or insane

**C**

**F**

And those bastards in the pentagon can t really kill Sue Dibney

**C**

**F**

No more than they could kill off Lois Lane

**G**

And I swear to god there ll be hell to pay

**Am**

**F**

If anybody tries to take you away

**C**

Forget this life

**G**

Forget this universe

**Am**

**F**

You re everything I need

**C**

You are my life

**G**

You are my universe

**C**

And they ll have to go through me
