[Verse]
       Ε
                               D
But the problem with having you out of me
            Е
                                    D
Is the giant space you left where you grew in me
           Е
                                  D
And grew so powerful, powerful bad news to me
                            D
       Е
Grows inside of you, buried deeply
          Ε
Is it too late for me?
