

I Want Wind To Blow
The Microphones

C G
C G

 C G
The thunder clouds broke up
 C
And the rain dried up
 G
The lightning let up
 C G
The clacking shutters just shut up

C G

 C
There s no black or white
No change in the light
 G C G
No night, no golden sun

 C
The sound of cars
The smell of bars
 G C G
The awful feeling of electric heat
 C
Under fluorescent lights
There s sacrifice
 G
There s hard feelings
 C G
There s pointless waste

 C G C G
I want wind to blow (to blow)

 C
My clothes off me
Sweep me off my feet
 G C G
Take me up, don t bring me back
 C
Oh, where I can see
Days pass by me
 G C G
I have no head to hold in grief

C

There s no hope for me

G C G

I ve been set free

C

There s no breeze

G C G

There s no ship on my sea

C G
