

**Diluted**

**The Miles Hunt Club**

The Miles Hunt Club - Diluted

**Am C x2**

It's a well-tried path  
With covered steps that should remain unseen  
Remain unseen to those like me, and  
It should make me laugh  
But doesn't seem it's playing out that way for me  
I'm giving up on comedy, cos

**F Am G x3**

There's a shadow hanging over me  
And there are things that I should not have seen, they're not for me  
There's a shadow hanging over me, it's over you

**Am C x2**

Now were you waiting long for something to go wrong  
As nature's own disease, I told you once and got it said now  
I should take that back, you know I can't retract  
The reasoning here, I still retain the sentiment cos

**F Am G x3**

**Em Am**

**Am G Em Am**

There's a shadow hanging over me  
And there are things that I should not have seen, they're not for me, no  
Yeah, there's a shadow hanging over me  
It's over you, cos it's over  
Yeah it's over me, it's over you, cos it's over

(Instrumental)

**F Am G x3**

**Em Am**

**Am G Em Am x3**

There's a shadow hanging over me  
And there are things that I should not have seen, they're not for me, no  
Yeah, there's a shadow hanging over me  
It's over you, cos it's over  
Yeah it's over me, it's over you, cos it's over  
Said it's over me, it's over you, cos it's over  
It's over me, it's over you, cos it's over

**Am G C F x2**

And I'm still guessing as to what it takes to get a seat on the board with all  
the great brakes  
I diluted the medicine to make it easier to take with enough of the water to

fill the great lakes

**Em Am**

**A G Em Am x3**

Cos it?s over

Said it?s over me, it?s over you, cos it?s over

Yeah it?s over me, it?s over you, cos it?s over

Said it?s over me, it?s over you, cos it?s over
