D **Bm**
Silver and gold, and it s growing cold
G **F#m**
Autumn leaves lay as thick as thieves

Shivers down your spine, chill you to the bone,
G **F#m**
cause the mandling wind is the melody that turns your heart to stone
D **Bm**
The heat of your breath carvin shadows in the mist

Every angel has the wish, she s never been kissed

A broken dream, haunting in your sleep

Hiding in your smile, a secret you must keep love cuts you deep.

Love breaks the wings of a butterfly on a wheel

but in the dark for me you re the candle flame that flickers to light
