The Moffats

tabbed by Geoff Kennedy

hey guys, i never really got too involved with this song, and what I mean is that i never got into minor or major chords, just stuck with 5ths, a.k.a. power chords. one thing i did kinda stick to is letting the high E and B ring through with the whole E B C# A progression. so whenever the progression is E B C# A the chords really are

E 022100

B x24400

C# x46600

A x02200

(other chords used)

D x00232

F# 2443xx

and the part that is the E G A C progression, I played them as power chords without the E and B ringing through.

ps-i was really lazy tabbing this out, i mean it is after all, just the moffats, so don t slay me over the inaccuracy of it all, its totally open for improvement.

And my heart goes jumpin ,
Every time she says, I have to go now ,
But it really don t matter for worse or for better,
She will always be my number one,
