Bang Bang Boom
The Moffatts

Name: Geoff Kennedy

Tabs: Bang Bang Boom
The Moffats
tabbed by Geoff Kennedy

hey guys, i never really got too involved with this song, and what I
mean is that i never got into minor or major chords, just stuck with
5ths, a.k.a. power chords. one thing i did kinda stick to is letting the
high E and B ring through with the whole E B C# A progression. so
whenever the progression is E B C# A the chords really are

E   022100
B   x24400
C# x46600
A   x02200

(other chords used)
D   x00232
F# 2443xx

and the part that is the E G A C progression, I played them as power
chords without the E and B ringing through.

ps-i was really lazy tabbing this out, i mean it is after all, just the
moffats, so don t slay me over the inaccuracy of it all, its totally
open for improvement.

E   **B**

 I got Mona Lisa by my side,
