

Blue World  
The Moody Blues

[Intro]

**Em** D C **Em**

[Verse 1]

**Em**

Heart and soul took control,

Took control of me

**C**

Paid my dues spread the news,

**Em**

Hands across the sea

Put me down turned me round,

Turned me round to see

**C**

Marble halls open doors,

**Em**

Someone found the key

**C**

And it s only what you do

**Em**

That keeps coming back on you

**C**

And it s only what you say

**Em**

That can give yourself away

[Verse 2]

**Em**

Underground sight and sound,

Human Symphony

**C**

Heard the voice had no choice,

**Em**

Needed to be free

Fly me high touch the sky,

Left the earth below

**C**

Heard the line saw the sign,

**Em**

Knew which way to go

**C**

Cos it s easier to try

**Em**

Than to prove it can t be done

**C**

And it s easier to stay

**Em**

Than to turn around and run

[Chorus]

**A C**

It s a blue world

**A**
