One Step Into The Light (Moody Blues)

 C D G D
% One step into the light, one step away from night
Above the dark despair, shines a light that we can share
The river of living breath, is flowing through the sun
There s one thing I can do, play my mellotron for you

 C D G
It s the hardest step you re gonna take
Close your eyes and look up in between your brows
He was there before the earth began
Try to blow away your city blues

 C D G D
The ship to take you there, is waiting at the head
Then slowly breathing in, feel the life force streaming in
The world will drag on you, use his love to pull you through
Your dreams are not unfound, get your feet back on the ground

Of the stairs that lead up through your opened mind
Hold it there then send it back to him
Find the mission of your life and start to be
The truth will set us free, we cannot lose Go &
