## Alphabetizing The Mountain Goats

## G Am B-Am-G (x4)

The summer crawled by indetectably.

and then i saw you looking down to me.

and your earrings sparkled in the noon-day sun,

G

Am

B

and though it s very true that i love everyone,

Em

with every ounce of energy left in me,

C

D

i love you especially because

G Am B-Am-G

i saw you,

G Am B-Am-G

coming through

G Am B-Am-G

the screen door

G Am B

on the second floor,

G

up on the balcony.

it was hard to even see you at all, because the air was thick with alcohol so i kept on rubbing my eyes, for all the good it did me, for all the immeasurable good it did me, let the years come and take away my memory, i will not forget the shock that ran through me when,

i saw you, coming through the screen door on the second floor, up on the balcony.
