The Girl Outside

**D7M:** XX0222

Riff: **D Dsus4**

[D] [D7M]  
You couldn't make it easy if you tried  
[D7] [G]  
So I'm gonna save it for the girl outside  
[F#] [Bm]  
I'll take her on a magic carpet ride  
[A] [G]  
We could walk the clouds together  
[F#m] [A] [D]  
Stay in love forever

If you don't answer what I feel inside  
I might try to make it with the girl outside  
And all our thoughts together we'll confide  
We'll see fairytale cities  
When following the lands of love

[Em] [A]  
Who needs the girl outside  
[D] [C] [Bb] [F] -- [A]  
When I can ride the tide of life with you  
[Em] [A]  
Why don't you turn around  
[D] [C] [Bb] [F] -- [A]  
And look at me, I often wish I knew you

You overstepped the mark so run and hide  
Cause I'm gonna take it to the girl outside  
I won't cast all my little dreams aside  
Every flower hides their faces  
By... their places
