The Girl Outside

D7M: XX0222

Riff: **D Dsus4**

[D] [D7M]
You couldn't make it easy if you tried
[D7] [G]
So I'm gonna save it for the girl outside
[F#] [Em]
I'll take her on a magic carpet ride
[A] [G]
We could walk the clouds together
[F#m] [A] [D]
Stay in love forever

If you don't answer what I feel inside
I might try to make it with the girl outside
And all our thoughts together we'll confide
We'll see fairytale cities
When following the lands of love

[Em] [A]
Who needs the girl outside
[D] [C] [Bb] [F] -- [A]
When I can ride the tide of life with you
[Em] [A]
Why don't you turn around
[D] [C] [Bb] [F] -- [A]
And look at me, I often wish I knew you

You overstepped the mark so run and hide
Cause I'm gonna take it to the girl outside
I won't cast all my little dreams aside
Every flower hides their faces
By... their places
