

**Another Yesterday**  
**The Mr. T Experience**

this is the acoustic version (sans the solo in other words) its pretty repetitive so

i m only gonna do the first verse, the chorus and the bridge.

intro:

**D A G D D A G D**

**D A G D**  
i ll sit through your replies

**D A G D**  
but i ve seen the answers in your eyes

**D A G D**  
i ve still got room for more lies

**D A G D**  
but now your walking away

**D A G D**  
we had a lovely day

**D A G D**  
you had to cast a spell on it

**D A G D**  
i had to try not to dwell on it

**D A G D**  
there s nothing to say

**A G D G A**  
i m already far away

**A G**(cut short)  
tryin to forget another yesterday

**D A G D D A G D**  
he hey hey

second verse is the same as the first as far as chords go. here are the lyrics:

don t snatch your hand away  
i promise not to bite you  
or kiss you just to spite you  
you ll get your way

and i m only on the way  
tryin to forget another yesterday

bridge:

**B A G D**  
and we ve got a ways to go. what i said to you wont get to you

**B F# G A**  
but if we had a place to go, i d still wanna be there too

back to the verse chords

last chorus  
and i m always on the way  
tryin to forget another yesterday

finish with verse chords

if you listen to the song its really not that hard to get. also incase you didnt know,  
a lowercase letter denotes a minor chord
