

Funky
The Music

The Music- Funky
transcribed by Dan Popplewell

nobody has transcribed this before so i thought i d put down the chords. dead
easy to play.

the chords are **Em A7 B7** all the way through aside from the middle 8 which is **C,D**
,C,D.

sounds best as barre chords. the **Em** is better played up on the 12th fret with
the **D**
string 12th fret
to make it an **Em7**. but as its acoustic this is probably only achievable with a
cutaway
acoustic guitar. but anyway play around with it. great tune. please rate.

Lyrics:

I look around
And everywhere I see
People chasing a dream
But how long will it last?
Life will
Life will sink it s teeth
Facing reality
Is something we don t do

Ohh
Lately
Life has been a little crazy
I don t really know what s happening
I just wanna make it right

Ohh
Chasing
Chasing down the same old roads
Tryin to find some inspiration
Why s it always seem so hard?

It s come to
Staring life in the eye
Standing up to the fight
But if you break it s over baby
Time will
Time will heal the pain
Like a needle straight through the vein

But if you break it s a cold, sharp entry

Lately

Life has been a little crazy

I don t really know what s happening

I just wanna make it right

Ohh

Chasing

Chasing down the same old roads

Tryin to find some inspiration

Why s it always seem so hard?

Chasing

Chasing down the same old roads

Tryin to find some inspiration

Why s it always seem so haaaaaard?
