Verse 1

C maj/**G** **F** maj7
Lay down your rigid arms

Am **F**
Cause we ve come so far as one

C maj/**G** **F** maj7
Degreed out of here

Am **F**
So on my back I feel some sun

C maj/**G** **F** maj7
Flee the darkness of this hour

Am **F**
Leave them more than a war behind

C maj/**G** **F** maj7
My life s a burning tower

Am **F**
The walls are the years we ve climbed

C maj/**G**

Chorus 1

C **F** maj7

How do I fight these inconceivable odds

Am F

From bringing me down?

C Fmaj7

The drive for explanation grips us all

Am F

And pins us to the ground

C Fmaj7

If I ever leave your side unattended

Am F

Exposed to the fall

C Fmaj7

If I ever leave your heart undefended

Am F

Your back to the wall

C, Am/F , C, Am/F

Verse 2 (same as verse 1)

Everyone must exist alone

The horror races with no ending

My thoughts are synchronized

To a clock with no time

The hearts of men will be corrupted

Abandoned by themselves

Life makes their minds destructive

Flattened by the (?) insides

Chorus 2 (Same as chorus 2)

How do I fight these inconceivable odds
from bringing me down?

The drive for explanation grips us all

And pins us to the ground

If I ever leave your side unattended

Exposed to the fall

If I ever leave your heart undefended

Your back to the wall

Outro

C, Am/F , C, Am/F repeat to end
