**D**            **A**            **G**  
My mind turned around  
**D**            **A**            **G**  
I m seeing things upside down  
**D**            **A**            **G**  
My mind turned around  
**D**            **A**            **G**  
I m acting like a clown

**A**            **D**  
Cause the girl of my dreams  
         **G**                    **D**  
Was right next to me and she was  
**G**                    **D**  
Sitting on my lap  
**Asus2**                    **Em**  
I didn t catch your name  
**G**                    **D**  
But I m going insane  
**A**                    **C**

**C**  
I will find her  
                 **G**  
I will get her  
                 **C**  
I will make her  
         **D**                    **G**  
Little heart come through  
                 **C**  
I will see her  
                 **G**  
From miles away  
                 **G**  
From night to day  
                 **C**  
In my head

-SPOKEN-

Ohh ahh

**C**  
I will dream of her  
          **G**  
When she s not there  
          **C**                  **D**          **G**  
When she is I will too  
          **C**  
I will need her  
          **G**  
As I do now  
          **G**  
I will bow  
          **C**  
For her affection
