## Fade

## The Narrative

```
Bar Chords are probably better to use (:
This is my first time writing out a tab and it s according to the key I sing it
which is a little lower than the original.
  C
We probably shouldn t talk,
cuz talking leads to thinking and
                                   G
eyes wide open blank in the dark.
We probably shouldn t think,
cuz thinking leads to questioning and
circles you right back to the start
    Am
But everything used to make sense,
We re testing it in our own strength, oh no
                  Am
If we don t leave now, we will break
                        F
We will falter, we will fade
                  Αm
If we don t leave now, we will harm,
                        F(hold)
                                       CGFCG
We ll regret what we ve done to ourselves
I probably shouldn t wish,
For your breath on my skin
Instead the cold that s traveling down from the vents above our heads
And drinking is no excuse,
It s an easy one to use
When lack of self control has left you making poor decisions for yourself
