

Baby Well Be Fine
The National

Just looking around learning some new songs and noticed this wasnt here, so I figured I might as well contribute. Please note this is my first tab, so if you have any I ll be more than open minded to them, lord knows i most likely got SOMETHING wrong.

Intro

Bm Asus2 G Em

Bm Asus2 G Em
All night I lay on my pillow and pray
Bm Asus2 G Em
For my boss to stop me in the hallway
Bm Asus G Em
Lay my head on his shoulder and say
Bm Asus B Em
Son, I ve been hearing good things

Repeat Chords

I wake up without warning and go flying around the house
In my sauvignon fierce, freaking out
Take a forty-five minute shower and kiss the mirror
And say, look at me
Baby, we ll be fine

C G Asus4 Am Em

All we gotta do is be brave and be kind
I put on an argyle sweater and put on a smile
I don t know how to do this

G Em C G
I m so sorry for everything
[repeat]

Same Chords as First Verse

Bm Asus2 G Em

Baby, come over, I need entertaining
I had a stilted, pretending day
Lay me down and say something pretty
Lay me back down where I wanted to stay
Just say something perfect, something I can steal
Say, look at me
Baby, we ll be fine

C G Asus4 Am Em

All we ve gotta do is be brave and be kind

I pull off your jeans, and you spill jack and coke in my collar
I melt like a witch and scream

G **Em** **C** **G**
I m so sorry for everything
