Make sure you do the hammers because otherwise the chords sound wrong, listen to the rhythm of the song to figure out the hammer-ons. I realize this isn't really what the Guitars are playing but if you want to play it by yourself I think this is what sounds best.

A
Bottle eyes, glassy blue
F#m **E**
I watch the rain come out of you
A
Sky is white with the flu
F#m **E**
I'm terrified of losing you
A **F#m** **E**
If I go to the sea, I'll bring you down, down with me
A **F#m**
If I go to the rain, you'll never see me again
A, F#m
E **F#m** **A**
You've got cold girl fever (2x)
